

Masterclass Cavus foot

April 22nd and 23rd 2024

Venue :

Skylab
3 rue de la Pastière
44115 Haute Goulaine,
Nantes France

Experts :

Yves Tourné
Kris Buedts

Our MasterClasses are under the patronage of EFAS and eligible for CME Credits.
Contact: Amandine Labrèze on +33 6 71 22 40 33 or by e-mail amandine.labreze@addidream.fr.

Our training courses are given in english.

Registration is subject to availability (14 participants).

We are pleased to invite you to a new concept of interactive courses:
How can you master the indications and surgical techniques for treating the cavus foot?

PROGRAM

We have designed a tailor-made course in two phases:

- Sequence 1: A face-to-face review course to validate theoretical knowledge and discuss clinical cases presented by experts and contributed by participants
- Sequence 2: A hands-on, in-person course based on ADDIDREAM dry bones from real cases, anatomical specimens and interactive videos

You will have the opportunity to work on pathological models. All the surgical equipment (screws, osteosynthesis plates, drills) will be available, enhancing this realistic and personalized experience to improve your skills.

It will be a unique opportunity to share experiences and daily challenges.

Option: it will be possible to work on your own patient case by transforming your CT Scan into a 3D bone model and discuss strategy with the experts during the practical session. This option has an additional cost of €250.

Topics covered:

- Malerba Calcaneal osteotomy
- 1st metatarsal basal closing wedge osteotomy
- Tarsectomy
- Supramalleolar osteotomy
- Triple arthrodesis
- Tendon transfers:
 - Posterior Tibial Tendon to the 3rd Cuneiform or Cuboid
 - Long Fibular Tendon to the Anterior Tibial Tendon

Schedule

Monday 22nd April 2024

14:00: Welcome address

14:15: Presentation of the course format and models

14:30: Academic presentations:

- General information on cavus foot
- Specific technical points on Malerba calcaneal osteotomy
- Specific technical points on 1st metatarsal basal closing wedge osteotomy
- Specific technical points on tarsectomy

16:00 : Break

16:15: Academic presentations:

- Tendon transfers
- Supramalleolar Osteotomies
- Triple Arthrodesis

17:30: Discussion over the clinical cases

20:00: Dinner

Tuesday 23rd April 2024

8:00: Welcome address

8:15: Hands-on practice on anatomical models representing pathological feet

- Malerba Calcaneal Osteotomy
- Elevation Osteotomy of the 1st Metatarsal
- Tarsectomy

12:00: Lunch break

13:30: Hands-on practice

- On anatomical models representing pathological feet
 - Triple Arthrodesis
- On anatomical specimens
 - Tendon Transfers
 - Posterior Tibial Tendon to the 3rd Cuneiform or Cuboid
 - Long Fibular Tendon to the Anterior Tibial Tendon

16:30: Discussion

16:45: End of session
