

Masterclass

Forefoot deformities

June 20th and 21st 2024

Venue :

Maison Koti
6 Prom. des Forges
33800 Bordeaux, France

Experts :

Yves Tourné
David Redfern

Our MasterClasses are eligible for CME Credits.

Contact: Amandine Labrèze on +33 6 71 22 40 33 or by e-mail amandine.labreze@addidream.fr.

Our training courses are given in english.

Registration is subject to availability (14 participants).

We are pleased to invite you to a new concept of interactive courses :
How to master the indications and surgical techniques in the treatment of forefoot deformities?

PROGRAM

We have designed a tailor-made course in two phases:

- Sequence 1: A face-to-face academic course to validate theoretical knowledges and discuss clinical cases provided by experts and participants
- Sequence 2: A hands-on, in-person course based on ADDIDREAM dry bones from real cases, anatomical models and interactive videos

You will have the opportunity to work on pathological models. All the surgical equipment (screws, osteosynthesis plates, drills) will be available, enhancing this realistic and personalized experience to improve your skills.

It will be a unique opportunity to share experiences and daily challenges.

Option: it will be possible to work on your own patient case by transforming your CT Scan into a 3D bone model and discuss strategy with the experts during the practical session. This option has an additional cost of €250.

Topics covered:

- Scarf
- Minimally Invasive Surgery for Hallux Valgus (MICA) or equivalent
- First MTP joint Arthrodesis
- Distal Metatarsal Osteotomy (Weil and DMMO)
- Lateral MTP joint Silicone Prosthesis
- Claw toe

Schedule

Thursday 20th June 2024

14:00: Welcome address

14:15: Presentation of the course format and models

14:30: Presentations:

- General information on hallux valgus
- Specific technical points on SCARF
- Specific technical points on MICA
- Specific technical points on Lapidus
