

# Masterclass

## Haglund's syndromes and Achilles insertion tendinopathy

March 18th and 19th 2024

---

### Venue :

Arthrex France  
Le Lab  
1 Av. Charles de Gaulle  
69370 Saint-Didier-au-Mont-d'Or  
France

### Experts :

Yves Tourné  
Ronny Lopes

**Our MasterClasses are under the patronage of EFAS and eligible for CME Credits.**  
Contact: Amandine Labrèze on +33 6 71 22 40 33 or by e-mail [amandine.labreze@addidream.fr](mailto:amandine.labreze@addidream.fr).

**Our training courses are given in english.**  
**Registration is subject to availability (14 participants).**

We are pleased to invite you to a new concept of interactive courses:  
**How to deal with the indications and surgical techniques for Haglund's syndromes including Achilles insertional tendinopathy?**

## PROGRAM

We have designed a tailor-made course in two phases:

- Sequence 1: A face-to-face academic course to validate theoretical knowledges and discuss clinical cases provided by experts and participants
- Sequence 2: A hands-on, in-person course based on ADDIDREAM dry bones from real cases, anatomical specimens and interactive videos

**You will have the opportunity to work on pathological models. All the surgical equipment (screws, osteosynthesis plates, drills) will be available, enhancing this realistic and personalized experience to improve your skills.**

It will be a unique opportunity to share experiences and daily challenges.

**Option:** it will be possible to work on your own patient case by transforming your CT Scan into a 3D bone model and discuss strategy with the experts during the practical session. This option has an additional cost of €250.

### **Topics covered:**

- Calcaneoplasty
- Zadek calcaneal osteotomy
- Flexor hallucis longus Transfer
- Detachment-reattachment of Achilles tendon distal-end
- Decision-making algorithm

# Schedule

## Monday 18th March 2024

14:00: Welcome address

### 14:15: Presentation of the course format and models

### 14:30: Academic presentations:

- Overview of Haglund's Syndromes and Achilles tendon Insertion tendinopathy
- Bone Procedures: Calcaneoplasty and Zadek Calcaneal Osteotomy

16:00: Coffee Break

### 16:15: Academic presentations:

- Detachment-reattachment of Achilles tendon distal-end
- Flexor hallucis longus transfer

17:15: Discussion over the clinical cases

20:00: Dinner

## Tuesday 19th March 2024

8:00: Welcome address

### 8:15: Hands-on practice

- On anatomical models representing pathological feet :
  - Calcaneoplasty by open procedure
  - Zadek osteotomy by open procedure
- On anatomical specimens:
  - Flexor hallucis longus transfer by open procedure

12:00: Lunch break

### 13:30: Hands-on practice on anatomical specimens

- Detachment-reattachment of Achilles tendon distal-end by open procedure
- Tenoscopic technique for flexor hallucis longus transfer
- Tenoscopic technique for detachment-reattachment of Achilles tendon distal-end

16:30: Discussion

16:45: End of session

General terms and conditions:

- Our training sessions are conducted in English.
- Confirmation of your registration will be sent via email to: [amandine.labreze@addidream.fr](mailto:amandine.labreze@addidream.fr).
- Payment method: bank transfer (after confirmation of your registration).

Our pricing:

EARLY until January 18th 2024 (include)	STANDARD from January 19th to March 17th 2024 (inclusive)	intern/resident
€980	€1050	€380
